📍 Jaipur, Rajasthan

SKILLS

- Data Science
- Machine learning
- HTML & CSS
- Graphical Design
- Management skill
- Effective Communication
- Team work
- Leadership

ACHIVEMENT

- Webathon certificate
- Runner up in SIH
- Coordinator in Echona event
- Coordinator in Sports event

INTERSHIP

Internship in Linux

(1 month)

Internship in Machine Learning

(1 month and 15 day)

PROFILE

A motivated and hardworking individual with strong management and communication skills, capable of working effectively both independently and as part of a team. A fast learner who adapts quickly to new technologies and environments, with a strong belief in teamwork and collaboration. Demonstrates leadership qualities, problem-solving abilities, and a continuous desire to learn and improve professionally.

PROJECTS

Eco Friendly Reward App

- Designed an application that encourages environmentally responsible behavior by rewarding users for eco-friendly actions. The system tracks user activities, assigns reward points, and promotes sustainability through digital incentives, helping to reduce environmental impact.

Digital Queue Management Sysytem

- Developed a digital solution to manage and optimize queues in public and organizational environments. The system reduces waiting time, improves service efficiency, and enhances user experience by providing real-time queue status and systematic token management.

Electric Motor Temperature Prediction

- Built a predictive model to estimate electric motor temperature using historical and real-time data. This project helps in preventing overheating, improving motor efficiency, and supporting predictive maintenance through data-driven insights.
